

Surfa Cornice 4 in.

Illuminated Crown Molding or Sconce

Versatile surface-mounted channel designed to transform any room with its soft halo effect

Endless Application Possibilities

Whether enhancing residential interiors or adding sophisticated touches to commercial spaces, Surfa Cornice is ideal for illuminated **crown molding** and **sconces**

Easy Installation

Features a simple mounting process and **linking system** for joining multiple profiles with ease

High-Quality Materials

Constructed from **precision extruded aluminum**, Surfa Cornice is fashioned with durability and elegance

Customizable Options

Customize your experience with options including 4 ft. or 7 ft. kits or **custom lengths, paint-ready finish**, and optional flat **end caps** for a sleek, finished look

Endless Application Possibilities

Illuminated Crown Molding

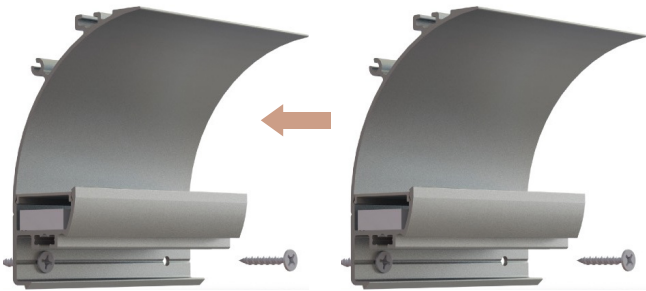

Create a continuous line around the room for a seamless crown molding effect

Sconce

Use as a sconce anywhere on the wall for a bold statement piece that fits ADA requirements

Easy Installation

Just place the profile against the wall and ceiling, and screw it into place. The **linking system** joins and aligns profile sections seamlessly for longer runs

Customizable Options

Length

Sold in complete kits (4 ft. or 7 ft.) to create a **finished fixture** in the field or **custom lengths** available through our build-to-order program

Finish

Anodized aluminum finish comes **paint-over** ready to match any aesthetic seamlessly

End Caps

Optional flat end caps with recessed screws are available for a **finished look** when used as a sconce

High Quality Materials

Constructed from **precision extruded aluminum**, Surfa Cornice is fashioned with durability and elegance
