

ALLOYLED

# AdaptDrive

The AdaptDrive is an all-in-one LED driver and dimmer that simplifies installation by fitting directly into a standard recessed electrical box—eliminating the need for a separate driver location. UL Listed and Class 2 Compliant, AdaptDrive is available in a wide range of output options in both 12VDC and 24VDC configurations to suit a variety of low-voltage lighting applications.

## High Power Density

First in its class to deliver up to 160W from a compact unit

## Wide Range of Options

Available in 12V or 24V outputs, with models from 60W to 160W

## Multitap Power

Breakthrough multi-tap versions feature dual outputs (2x80W ports or 2x60W ports) in one unit - ideal for demanding installs

## Advanced Models

VariTune CCT options available in 24V/96W and 24V/160W versions

## Product Information

Item Number	Description
AL-97-02-12060	AdaptDrive - 12V DC - 60W
AL-97-02-12120	AdaptDrive - 12V DC - 120W
AL-97-02-12120-MT	Multi-Tap AdaptDrive - 24V DC - 120W - (2 x 60W Ports - 120W total)
AL-97-02-24060	AdaptDrive - 24V DC - 60W
AL-97-02-24096	AdaptDrive - 24V DC - 96W
AL-97-02-24160	AdaptDrive - 24V DC - 160W
AL-97-02-24160-MT	Multi-Tap AdaptDrive - 24V DC - 160W - (2 x 80W Ports - 160W total)
AL-97-03-24096	AdaptDrive VariTune Tunable White - 24V DC - 96W
AL-97-03-24160	AdaptDrive VariTune Tunable White - 24V DC - 160W
